

**The garden of Christine & Steve Gasperini**  
**4708 Walnut Hill Drive, Evans, GA**

What once began as a solution to weeds in 2012 has blossomed into an informal perennial garden and gathering spot for family weddings, dinners and parties. A rose garden, azaleas, and irises are just some of the plants that follow the paths, steps, vertical and rock gardens nestled within the garden landscape.

The Gasperini's landscape consisting of approximately 21+ tons of rock, numerous brick walkways, many flowers and lots of shrubs create a happy garden to enjoy for years to come.
